Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 21-26 and 28-32, drawn to a spa sound wave guide, classified in class 004 subclass 541.1.
- II. Claims 35 and 37-39, drawn to method of providing sound to a spa occupant, classified in class 004, subclass 661.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case (1) applies in that the sound wave guide does not need to be located in the spa .

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

It is noted that the specie of Fig. 3C was elected previously. Applicant should confirm same.

Any inquiry concerning this communication should be directed to Charles E. Phillips at telephone number 571-272-4893.
